RID YOURSELF OF THE IDEA  
THAT GAS LIGHTING IS A BACK NUMBER

Up to recently the gas industry was so busy supplying service for cooking and heating purposes, that gas for lighting was neglected.

Now gas illumination is being restored to popular favor.

Wonderful inventions in lamps and mantels; proper attention to the subject by gas companies; tremendous volume of light at small cost—all are factors which make gas lighting desirable in home, factory, office and store.

You pull a chain when you want light—the Gas Company does the rest.

The Gas Company have just a few, only about a half dozen, of "No. 175-4" 4-burner gas stoves with 18-inch oven, which they are closing out at special price, preparatory to getting in a new carload. These stoves have never been used. Price: \$15.50, Five Dollars down, Three Dollars a month. All cash \$13.50.
